DocuWare Named Outstanding Enterprise Document Management Solution

BLI Honors DocuWare with Summer 2010 "Pick" Award

Newburgh NY, – June 28, 2010 – DocuWare Corporation, a leader in the Integrated Document Management industry, has been selected by Buyers Laboratory Inc.(BLI) as a Summer 2010 "Pick" Award winner for outstanding document imaging software solutions.

DocuWare Enterprise was awarded as the top-performing document imaging solution. Testing on Version 5 acknowledged a very full set of features that is especially strong in compatibility, scalability, ease of use, security, and value. It was judged to be well suited to meet the needs of a wide range of organizations that are looking to improve their business processes. BLI, leading independent testing and review provider for the imaging industry, awards top-performing software solutions after they have undergone rigorous review for the target market and are rated against leading competitors.

"We at DocuWare cannot emphasize enough the great importance of this prestigious recognition. The assurance of our product's quality and high performance by an outside source such as BLI is of tremendous value for our reselling Partners and their customers," noted Greg Schloemer, president of DocuWare Corporation. He stressed the importance of the high evaluation given for the training and support DocuWare provides for their resellers and customers.

A five star rating (the highest attainable) was recently given to DocuWare Enterprise by BLI. This followed months of testing conducted by BLI during which time DocuWare was rated in categories that included: Ease of Use, Security, Software Integration, Training, Upgrade Path and Global Business Readiness. BLI "Pick" contenders are selected from those that earn the highest ratings. This hard-to-come-by award serves as a guide for buyers and IT directors in the decision making process.

About Buyers Laboratory Inc.

In business for over 45 years, BLI has been the leading source for extensive databases of specifications and pricing on copiers, printers, scanners, multifunctional products and most recently, solutions. DocuWare – Integrated Document Management Solutions

DocuWare is an integrated document management software solution that easily automates business processes by electronically managing and sharing documents. Regardless of format or source, documents are stored in one central document pool. One search quickly locates all documents related to a business transaction. All access is secure, controlled, and logged.

With Web-based document management, automated workflow and powerful integration tools to both hardware and software, DocuWare's flexibility enables complete mobility, transparency and scalability to grow with the customers' needs. A standard feature is an embedded and fully licensed powerful SQL database enabling full text retrieval. DocuWare also supports all forms of electronic signatures and is independently certified to ensure compliance with important government and private sector standards.

DocuWare solutions are known for their easy installation, administration and operation, as well as an exceptionally low Total Cost of Ownership. There are over 7500 installations, with more than 100,000 daily users; in over 70 countries (available in 15 languages).

Founded in 1988, DocuWare AG is based in Germering near Munich, Germany. The company's US subsidiary, DocuWare Corporation, is located in Newburgh, New York and is responsible for all activities in The Americas. Additional subsidiaries are located in the UK, Spain and France. DocuWare solutions are available through its worldwide independent reseller network of over 400 Authorized DocuWare Partners represented by more than 1000 experts who bring DocuWare close to its customers.
